<p>Key achievements since last quarter:</p>	<p>Delivery Plan The Nottinghamshire community cohesion delivery plan was agreed at the last Community Cohesion Delivery Group (CCDG) meeting on 17 November 2009. The Plan's priorities are: Working with Children and young people Improved hate crime monitoring and actions. Locality community cohesion work in the lowest performing areas.</p> <p>Tension monitoring and community cohesion Local network meetings brought together the local community cohesion officer, community safety officer and the inspector linked to the local neighbourhood /Local Area Commander to record and share existing practice on tension monitoring. In future Community Impact Assessments from each Police division will be sent to the Safer Communities team to provide a comprehensive tension monitoring return and to provide regular reports to GOEM.</p> <p>Hate Crime systems Whilst the current NHMP recording systems are in abeyance the Police Hate Crime Unit is sharing information with the JiN team to provide interim hate crime statistics for partners.</p>

To be completed before each Stronger Communities Network Meeting

	<p>Neighbourhood Policing It has been agreed in principal through SCN and SNB to work together on neighbourhood policing in order to improve community engagement in prioritising activity. The final details of how this will work are to be agreed between SCN and the police. Peter Clarke, Stronger Communities manager, is liaising with Chief Inspector Sean Anderson on detail and practicalities.</p> <p>PREVENT Tony Shardlow in the Safer Communities team is leading on the development of a county-wide PREVENT action plan.</p>
Key activities planned for the next quarter:	<ol style="list-style-type: none">1. Joint working with ASCH colleagues to look at current practices regarding hate crime reporting, tasking and safeguarding issues relating to possible changes in current working practices to reflect lessons learned from the Pilkington case.2. Connecting Communities -The Safer Communities team will offer a supporting role to colleagues working on the areas of Killisick and Harworth3. Enhanced locality working in those areas scoring poorly against NI1 – in particular Ashfield where have identified hate crime issues relating to the Hucknall mosque and possible incidents in Huthwaite as the most appropriate areas for possible intensive activity.4. Working with colleagues in CYP to identify most appropriate

	<p>method to assist schools to meet the OFSTED inspected duty around promoting community cohesion.</p> <p>4. Ensure that there is better reporting and recording of hate crime by a root and branch review of the mechanisms for recording hate crime - e.g. online reporting, 24/7 phone line - leading to action in areas of most activity and achieving an increase in respondents being satisfied with their experience of racist incident outcomes.</p>
Blockages/issues to be addressed by the Stronger Communities Network:	<p>Support and advice on the best way to carry forward work on community cohesion in particular localities identified as lowest performing.</p> <p>Better awareness by partners of the existing reporting centres and procedures relating to hate crime.</p>

To be completed before each Stronger Communities Network Meeting

Status of Delivery Plan	
Status: (Red/Amber/Green/Blue)	Comments:
	<p><i>If a delivery plan is assessed to be Red or Amber, a comment must be added to provide an overview of what the issue is and what remedial action is planned.</i></p> <p><i>If a plan is assessed as Green or Blue, it would be useful to give an explanation of what has gone really well so best practice can be identified and shared.</i></p>
	<p>The current measure for success of the community cohesion delivery plan will be NI1 as part of the Place Survey – the perception nature of the indicator means it may be determined by national factors such as economic recession which may affect outcomes, rather than actual local factors.</p>
Table A: Criteria for assessing status of delivery plans	
1 – Red	Activities will be not meet defined targets or milestones, or will not take place.
2 – Amber	Activities within the delivery plan are happening but slightly behind schedule to meet defined targets or milestones.
3 – Green	Activities within the delivery plan are on schedule to meet defined targets or milestones, or have been completed.
4 – Blue	Activities within the delivery plan are on schedule and will be achieved significantly ahead of expectations and include examples of exceptional practice.
